Thursday, January 24 • 10:00 - 10:45 a.m.

Where does our food come from? Children will learn through hands-on fun to consider how foods they love actually grow. They'll meet a live creature that helps gardens grow, and take home a fun surprise. You and your child can visit our wonderful winter vegetable garden together after the class.

Fabulous Flowers

Thursday, February 28 • 10:00 - 10:45 a.m.

Gorgeous flowers are all around, especially at Leu Gardens! We will see, smell and feel some beautiful blooms. We'll discover why plants have flowers and play a fun flower power game. Each child will take a special potted plant home to grow. After the class you and your child can visit the February blooms of Leu Gardens.

Crawl, Fly, Hop

Thursday, March 28 • 10:00 - 10:45 a.m.

Animals abound on the Leu Gardens grounds! Through an active fun game children will discover and imitate the ways they move around. We will all take a trek together to a great wildlife watching spot and make a bird feeder to take home.

Life Underground and All Around

Thursday, April 25 • 10:00 - 10:45 a.m.

What's below the ground we walk on? There's an awful lot of life underground from roots to worms to – who knows what else! We'll discover much of it and meet some live critters that prefer to live below the surface. The children will create a fun project to take home.

Backyard Bugs

Thursday, May 23 • 10:00 - 10:45 a.m.

Buds need bugs and so do we! We will meet some backyard bugs and play some fun bug games and make a fun bug craft! If that's not enough bugs for you, you can visit the Butterfly Garden with a Bug Bingo Card after class and see what you can find!
